

Ryan Cho

Senior Full Stack Software Engineer

+1 608 360 1459 · Ryanmcho100@gmail.com · <https://www.linkedin.com/in/ryan-cho-2020/> · <https://github.com/Chomama> · New York, United States

PROFESSIONAL SUMMARY

Full stack software engineer with 8+ years building enterprise web applications and APIs across wealth management and banking. Skilled in Java, Spring Boot, Angular, and TypeScript with proven delivery on AWS using Docker, Kubernetes, and Terraform. Leads agile teams through CI/CD with Jenkins, test automation, and GitHub workflows. Combines financial domain expertise with technical leadership, mentorship, and AI-assisted development to ship reliable platform features at scale.

WORK EXPERIENCE

Software Engineer

May/2022 - May/2026

Aspen Capital

Remote | 10th Floor, New York

- Architected and delivered **full stack wealth management platform features** using Java Spring Boot, Angular, and TypeScript across distributed microservices supporting hundreds of advisory users.
- Built **REST and SOAP integration layers** connecting brokerage, portfolio, and client data services; reduced cross-system latency by 30% through API consolidation and caching strategies.
- Led **Docker and Kubernetes deployment** on AWS, partnering with DevOps to standardize Terraform infrastructure and improve release reliability across production services.
- Drove **Jenkins CI/CD automation** including unit, integration, and contract tests; cut deployment cycle time from days to under four hours while maintaining high test coverage on critical paths.
- Mentored junior engineers on **code review practices and Spring design patterns**; promoted GitHub pull request workflows that improved team merge velocity by 25%.
- Collaborated with business partners and senior management to translate advisory requirements into **technical roadmaps**, presenting architecture options for client onboarding and reporting capabilities.
- Introduced **AI-assisted development workflows** using GitHub Copilot and ChatGPT for boilerplate generation and test scaffolding, improving developer productivity without compromising quality standards.
- Championed **Agile Scrum process improvements** including refined sprint planning and definition-of-done criteria that reduced production defects over consecutive release cycles.

Technology Analyst, Incoming Technology Analyst, Technology Summer Analyst,

May/2019 - Apr/2022

BNP Paribas

Remote | Seventh Avenue, New York

- Developed **enterprise Java applications** with Spring Framework supporting institutional trading and wealth operations for global banking clients across North America.
- Designed and implemented **JSON REST and SOAP web services** integrating legacy clearing systems with modern front-office platforms processing millions of daily transactions.
- Built **AngularJS dashboard modules** for technology analysts and business users to monitor batch jobs, exceptions, and regulatory reporting workflows.
- Contributed to **AWS cloud migration initiatives** containerizing services with Docker and establishing foundational Kubernetes deployment patterns for non-production environments.
- Automated **JUnit and integration test suites** within Jenkins pipelines, enabling continuous integration across multiple application repositories and catching regressions pre-merge.
- Partnered with cross-functional technology and business teams in **Agile Scrum ceremonies** to prioritize backlog items, resolve blockers, and deliver quarterly regulatory enhancements on schedule.
- Supported **GitHub-based collaborative development** with structured pull requests, code reviews, and branch strategies adopted across the analyst engineering group.
- Identified and implemented **process improvements** in deployment checklists and environment provisioning that reduced release rollback incidents year over year.

Software Engineering Intern

Jun/2018 - May/2019

Chexology

Remote | 17th Floor, New York

- Built **React and Node.js features** for a SaaS check-management platform, implementing REST API endpoints consumed by customer-facing web modules.
- Wrote **automated unit and integration tests** using Jest and Mocha, raising coverage on assigned modules to 80%+ before production release.
- Participated in **Agile sprint planning** and daily standups, delivering assigned tickets across frontend UI fixes and backend data validation logic.
- Refactored legacy JavaScript components to improve **rendering performance** on high-traffic list views, reducing page load times by 40%.
- Collaborated via **GitHub pull requests** with senior engineers on feature branches, incorporating feedback to meet team coding standards.
- Documented API contracts and deployment steps for intern handoff, supporting smoother **continuous integration onboarding** for subsequent team members.

Web Developer

Sep/2017 - Nov/2017

Bayesquare Foundation

Remote | New York

- Developed **responsive web pages** for a nonprofit foundation site using HTML, CSS, and JavaScript, ensuring cross-browser compatibility for donor-facing content.
- Implemented **contact and newsletter forms** with client-side validation and backend email integration, improving form submission success rates.
- Optimized page assets and image compression to achieve **PageSpeed performance gains** across mobile and desktop breakpoints.
- Coordinated with remote stakeholders to gather requirements and iterate on **UI mockups** within a fast-paced delivery timeline.
- Maintained **version-controlled codebase** using Git, enabling rollback capability and traceable change history during the engagement.

EDUCATION

New York University

Bachelor of Arts (B.A.), Computer Science

2016-2020

SKILLS

Frontend: Angular, AngularJS, TypeScript, JavaScript, HTML5, CSS3, Responsive UI

Backend: Java, Spring Boot, Spring Framework, REST APIs, SOAP, JSON, XML

Databases: PostgreSQL, MySQL, Oracle, Redis

Cloud & DevOps: AWS, Docker, Kubernetes, Terraform, Jenkins, CI/CD

Monitoring & Tools: GitHub, JUnit, Mockito, SonarQube, GitHub Copilot, Postman

Workflow & PM: Agile, Scrum, Jira, Technical Leadership, Mentorship, Conflict Resolution
